

“a *Sound*
experience”

Dear Parents,

A member of staff of the Australian Youth Choir visited your child's school recently, with the consent of the Principal, to conduct a short vocal activity and to distribute information about the choral education programme offered by the Australian Youth Choir. As a result of this activity your child is invited to attend a **FINAL AUDITION** for a place in the Choir in 2010.

Please Telephone our Audition line to make an appointment.

Students who are successful in the final audition will be offered a place in the Choir to commence February 2010. Parents and students will be advised in writing of the outcome of the audition. Further information regarding the Choral program is available via our website or by telephoning our office on **(08) 8271 5421**.

Our staff are happy to discuss any aspect of the Choral program including tuition fees and rehearsal times.

A SOUND EXPERIENCE

Each weekly Choir rehearsal encompasses:

- Choral repertoire
- Voice production
- Sight singing and aural skills
- Breathing techniques
- Memory training
- Concert performance skills and stage craft

All choristers are involved in three major Concerts each year and a CD recording.

Our Programme in 2010

The Australian Youth Choir aims to provide exciting opportunities for artistic growth. Our program encourages an appreciation of music and performance with sequentially structured activities incorporated to foster the development of musical skills, aesthetic awareness, self esteem, confidence and social skills.

Why should kids should be given the chance to develop their natural singing voice?

- Singing helps release tension creating a relaxed, happy mental state
- Singing improves breathing, blood pressure and blood flow
- Singing is fun. It makes you feel good
- Choral singing is a great social event and provides individuals with immense personal satisfaction through the pursuit of a common goal
